## Bitter Cold In Blizzard's Wake In Middle West

Chicago Digs Way Out Of  
Heavily Drifted Snow  
Today

NORTH DAKOTA  
HAS 36 BELOW

Minnesota Reports Thermo-  
meter Goes Down To  
30 Below

(International News Service)  
CHICAGO, Feb. 8.—Bitter  
cold temperatures ranging  
from zero to 36 below settled  
a paralyzing grasp over the  
central and western states  
today in the wake of one of  
the worst blizzards in recent  
years.

The mercury fell well below the  
zero mark in the Chicago area to-  
day as the city dug its way out of  
twelve inches of heavily drifted snow  
which blocked highways and inter-  
rupted all transportation.

Seven deaths were attributed to  
the storm here as the blizzard rolled  
eastward over the Great Lakes  
region.

Schools Closed.  
Authorities closed all the schools  
here. Many communities, through-  
out the central states took similar  
action.

Weather forecasters predicted the  
cold wave will last throughout the  
week.

A thick blanket of snow lay over  
the entire area from the Rocky  
mountains to the Great Lakes. In  
many sections the drifts made high-  
ways impassable. Hundreds of au-  
tomobiles lined the roads, abandon-  
ed by their drivers. Airplane trans-  
portation was practically at a stand-  
still.

A storm, whirling out of the Pa-  
cific northwest, penetrated as far  
south as Texas, where snow fell and  
mercury dropped to zero.

At Bismarck, N. D., the mercury  
fell to 36 below. Sub-zero readings  
other cities were: Duluth, Minn.,  
30; Huron, S. D., 24; Omaha, 12;  
Voorhead, Minn., 23; Rapid City,  
S. D., 26, and Wichita, Kan., 8.

## PA NEW OBSERVES

While making a call at a local  
Highland avenue home Pa New  
was reminded of "Grandma's time"  
when she spied a tea kettle, this  
one a bit of art being made from  
bronze, placed over the kitchen  
stove fire. But to make it more  
modern, this happened to be a  
"singing tea kettle" i. e. as soon as  
the water started to boil it began  
singing a little tune. Most unique  
and an object one seldom sees in  
the homes of today.

Winter is with us again and in a  
big way.

One man was having a tough time  
of it yesterday afternoon. His large  
truck load of coal stood out in the  
center of the street near the post  
office and he was trying to repair a  
broken wheel. Approaching auto-  
mobiles were having a hard time  
getting by.

The community, naturally, will  
watch with interest the functions of  
that new group of high school and  
college graduates who organized  
this week to ascertain how they  
might, working individually and col-  
lectively, contribute service to the  
community and benefit from the  
doing as well. It's a procedure al-  
together new here. Wise leaders  
should cause the organization to be-  
come an influential instrument for

## MERCURY DROPPING IN WESTERN PENNA.

(International News Service)  
PITTSBURGH, Feb. 8.—Western  
Pennsylvania will be crippled by an  
old-fashioned cold snap by tonight.  
This cheerless prophecy came to-  
day from the U. S. Weather Bureau  
here.

The whirling blizzard which swept  
through the midwest yesterday is  
rapidly nearing the Pennsylvania  
border line.

At nine o'clock this morning, the  
mercury at Pittsburgh hovered  
around the 28-degree mark. Weather  
observers said the mercury was  
dropping steadily and that zero  
weather may prevail by midnight.

## Senate Ousts Barry; Weights Further Moves In Magazine Charge

(International News Service)  
WASHINGTON, Feb. 8.—After  
ousting David S. Barry, its sergeant-  
at-arms, for declaring some mem-  
bers of congress "sold their votes for  
money," the senate today awaited a  
report from its judiciary commit-  
tee on the question of prosecuting  
publishers of the "New Outlook"  
magazine on a charge of criminal  
libel.

Barry was "fired" from his \$8000  
a year post, by a vote of 53 to 17,  
for writing the accusation in an ar-  
ticle published by the "New Out-  
look." Alfred E. Smith is editor of  
the magazine.

The judiciary committee will meet  
tomorrow to pass upon a resolution,  
directing the federal district attor-  
neys in New York city and here to  
proceed against the magazine's pub-  
lishers on a libel charge. The com-  
mittee has indicated it will recom-  
mend this prosecution.

A furious debate preceded the  
ousting of Barry. His conduct in de-  
claring "there are not many crooks  
in congress" and "there are not  
many senators or representatives  
who sell their votes for money," was  
fayed and excused. Some Republi-  
can senators pleaded for mercy, call-  
ing attention to Barry's 12-year ser-  
vice as sergeant-at-arms, but other  
senators argued this only made his  
unsubstantiated charge a more ser-  
ious crime.

Shanghai armistice, the Japanese  
legation today lodged a sharp pro-  
test with United States Consul Ed-  
win S. Cunningham against passage

city en route to Hangchow.

The armistice signed at conclu-  
sion of the battle of Shanghai last  
year established a neutral zone  
around the city.

## Charge Man With Threats Against Court Witnesses

Two Women Claim George  
Burns, Braddock, Threat-  
ened Them As To  
Testimony

(International News Service)  
PITTSBURGH, Feb. 8.—Charges  
of attempting to intimidate witness-  
es were recorded against George  
Burns, of Braddock, today, as the  
defense neared the end of its case in  
the trial of J. E. Galtz, 42, McKees-  
port, charged with murder in the  
death of Mary White, 27, also of  
McKeesport.

Burns was taken into custody af-  
ter Mrs. Martha Costan and Marie  
Pryor, both of McKeesport, in-  
formed the detective bureau that  
Burns allegedly visited their homes  
Saturday night and warned them  
"to be careful of your testimony."

Both women said Burns exhibited a  
pistol in support of his threats.

The White girl was found dead in  
an automobile in front of her home  
last June 27. The commonwealth  
charges she suffered fatal burns  
during an argument with Galtz. De-  
fense attorneys contend the girl met  
her death in an auto accident.

## School Building Prey Of Flames Near Pittsburgh

(International News Service)  
PITTSBURGH, Feb. 8.—Fanned  
by a high wind, fire destroyed the  
Mollenauer public school in Bethel  
township today with loss of \$10-  
000.

The blaze was believed to have  
originated in an overheated fur-  
nace.

The school building was comprised  
of four large classrooms and a stor-  
age room.

Two Thousand Veteran Em-  
ployes Of Pennsy At Phila-

(International News Service)  
PHILADELPHIA, Feb. 8.—"The  
Pennsylvania railroad is still in the  
black."

Two thousand veteran employes  
had those reassuring words today  
from the lips of H. A. Enoch, chief  
of personnel, who said the rail-  
road is still operating profitably.

He told the workers not to  
"worry" about the railroad's future.

## Governor Pinchot Plans To Address State Legislature

Will Outline Unemployment  
Relief Program On Next  
Tuesday

MANY MEASURES  
BEFORE LEGISLATORS

Sessions Are Adjourned To-  
day Until Next Mon-  
day Night

By ROBERT F. GORMAN  
International News Service Staff  
Correspondent

HARRISBURG, Feb. 8.—Deliv-  
ing into a maze of legislation,  
both branches of the state as-  
sembly mapped out heavy cal-  
endars and concluded the legis-  
lative week before noon today.

The seventh week of the session,  
starting next Monday night, may be  
marked by the third appearance of  
Gov. Clifford Pinchot, who is pre-  
paring a message on unemployment  
relief. Next Tuesday at noon has  
been fixed tentatively for the gov-  
ernor's address, but that is contin-  
gent upon completion of the message.

Because it is perhaps the most  
controversial issue on which the leg-  
islature must act, assembly leaders  
anxiously awaited the detailed out-  
line of the administration on the  
relief problem. The governor is ex-  
pected to deal at length with the  
community market system, which  
has met with strenuous objections  
since it was first proposed a few  
weeks ago.

## Electoral Vote Being Counted

With Due Formality Roose-  
velt And Garner Will Be  
Officially Elected  
Today

AGE-OLD RITUAL  
BEING OBSERVED

(International News Service)  
WASHINGTON, Feb. 8.—With  
due ceremony and great formality  
Franklin D. Roosevelt and John N.  
Garner will be elected president and  
vice-president, respectively, today  
with the counting of the electoral  
vote.

A relic of stage-coach days when  
election news spread slowly, the elec-  
tion follows a ritual observed since  
the founding of the republic.

Since it is an occasion of great  
importance, the house meets with  
the senate for the balloting.

Vice-President Curtis presides.  
Ironically, while he presides at his  
own defeat his successor, Speaker  
Garner, will sit smilingly alongside  
of him.

## Roosevelt Summons Governor's Conference

(International News Service)  
NEW YORK, Feb. 8.—In an un-  
precedented move for assault on the  
economic depression President-elect  
Franklin D. Roosevelt has mapped  
plans for a thorough-going confer-  
ence with governors of all the states  
on perplexing governmental prob-  
lems, it was disclosed today.

A conference of the 48 governors  
with the president-elect has been  
summoned for March 6 at the White  
House, Louis M. Howe, Mr. Roose-  
velt's secretary, revealed. Howe  
made public a letter from the presi-  
dent-elect asking the governors to  
meet with him and talk over such  
topics as federal aid in unemploy-  
ment relief, reorganization and con-  
solidation of local government, tax  
costs, farm relief, conflict of federal  
and local government in taxation,  
better use of lands and other sub-  
jects "in which the federal and state  
governments are mutually interest-  
ed."

Text of the president-elect's let-

Sumatran mutineers who comman-  
deered the Dutch warship De Zeven  
Provincien scurried down the Indian  
ocean, the council of the Dutch East  
Indies held an extraordinary meet-  
ing to consider possible action today.  
Angered by reports the mutinous  
crew had threatened to fire on pur-

ductions in expenses for the

tures in the general fund for 1932  
as \$554,146.10, and an estimate for  
1933 of \$462,729.78. Controller Mc-  
Caslin goes into an explanation of  
reductions which he believes can be  
made. The report was received too  
late to publish these recommendations  
today, but the report in full  
will be published in the News to-  
morrow.

Expenditures of the poor fund for  
1932 amounted to \$368,184.30. An

## Earth Shock Is Felt In France

Seismograph At Strasbourg Is  
Broken By Shock, Build-

(International News Service)  
STRASBOURG, France, Feb. 8.—  
The severest earthquake recorded in  
Central Europe in many years shook  
this vicinity at 7 a. m. today, rock-  
ing buildings for several minutes.

The seismograph in the Civic  
building was broken by the shock.  
One building was demolished.

"I can only say that I am deeply  
grateful for what has happened,"  
said Mrs. McNeil. "Just now I am

supreme court, the cabinet, and the diplomatic corps who met with both

## Mrs. McNeil Expresses Her Gratitude For Freedom Given Her

Mrs. Anna May McNeil, is a free  
woman today. In the eyes of the  
law she has committed no crime for  
she proved Tuesday night beyond  
reasonable doubt, that she killed her  
husband Harold McNeil in self de-  
fense.

Grave apprehensions have given  
way to something almost approach-  
ing serenity and as she sat with her  
family Tuesday night late in her  
father's home in Walmo, gratitude  
and relief marked her words and  
actions. Friends had come in to re-  
joice with her over the action of the  
law, her father and mother were  
there, and upstairs Lee age 3 and  
Betty Jean age 6, were sleeping  
peacefully, all unconscious of the  
fact that their mother had just  
come through one of the gravest  
crises she will ever face.

"Deeply Grateful"

"I can only say that I am deeply  
grateful for what has happened,"  
said Mrs. McNeil. "Just now I am

## Coroner's Jury Also Exonerates Her Of Shooting

Walmo Woman Is Given Her  
Liberty By Officers On  
Tuesday Night

MANY WITNESSES  
HEARD IN CASE

Defendant Tells Story Of  
Abuse By Husband At  
Hearing

Exonerated of all blame in  
the death of her husband,  
Harold McNeil, whom she  
shot and mortally wounded  
in their home at Walmo,  
early Sunday morning, Mrs.  
Anna McNeil walked from  
the courtroom of Alderman  
L. C. Mantz, a free woman  
again, last evening.

Vindicated of the charge of mur-  
der by Alderman Mantz, and the  
coroner's jury, who had jointly heard  
the evidence presented by a large  
array of witnesses, Mrs. McNeil is  
now able to again take her place in  
society, and to try and re-shape the  
course of her life, which had been  
marred by the unhappiness caused  
by her husband's abuse during the  
last three years of their life together.

Mrs. McNeil Testifies.

Mrs. McNeil, herself, took the  
stand and clear-eyed and tense, re-  
lated many instances of abuse which  
she had suffered at his hands. This  
resulted in their coming to the  
breaking point only two weeks ago,  
when they discussed a separation.  
She stated that he had wanted to  
keep little Lee, their youngest child,  
half of the time. She could not bear  
to think of this separation, she said,  
and for the sake of the children she  
decided to remain with him, and  
they agreed to keep up appearances  
the best they could.

She related of the details leading  
up to the shooting Sunday morning,  
when she had pulled the trigger on  
the gun to try and wound him in  
the leg or foot, to keep him away  
from her, as he threatened her  
"with the worst beating she had  
ever received in her life."

Many Witnesses.

A great number of witnesses were  
produced, who testified to her good  
character and the fact that she had  
been a good wife and mother.

W. J. McNeil, father of the dead  
man, and his daughter, Mrs. Alice  
Clinefelter, both spoke feelingly of  
the high regard in which they had  
held the accused woman, and felt  
that she was justified in what she  
did Sunday morning. Neither blamed  
her in the least, they stated, and  
felt very sorry about the affair.

After the testimony had all been  
presented, District Attorney John  
Powers recommended to Alderman  
Mantz that Mrs. McNeil be freed of  
the charges which had been placed  
against her, stating that it was the  
business of the district attorney to  
present all the facts possible before  
the court, and that in his opinion,  
there was no evidence which justi-  
fied her being held for the grand  
jury.

Alderman Frees Woman.

Alderman Mantz concurred in the  
recommendation and announced that  
the evidence showed she had acted  
entirely in self defense and that she  
was free to go back to her home.

A great throng had gathered  
around the doors of Alderman  
Mantz's office long before the hear-

# FARLEY TO BUILD HUGE PARTY MACHINE

## To Hold Power In Patronage

Will Be Head Of Three Important Patronage Distribution Agencies

ALREADY LOOKING FORWARD TO 1937

By GEORGE E. DURNO  
International News Service Staff Correspondent

MIAMI, Fla., Feb. 8.—James A. Farley, better known as the "Genial Jim" who piloted President-Elect Roosevelt's campaign to victory, maintains a vice-like grip on Federal and New York state patronage for the next four years in such fashion as to build up a Democratic party organization that will be well nigh 100 per cent Roosevelt in character.

He plans to accomplish this by the rather unprecedented course of being postmaster general, chairman of the Democratic national committee, and chairman of the New York State Democratic committee at one and the same time.

Farley To Dictate  
With this three-pronged political mantle draped over him, Farley will be in a position to dictate appointments all over the United States from the highest positions down to the lowest—and at the same time keep an eagle eye on Tammany and the other forces in the Empire state that were anti-Roosevelt up to and through the Chicago convention.

Furthermore, this astute politician intends to put fairly young men and women into the bulk of the thousands of jobs that fall open with the change of administration. Thus, he will have back of him an army of office holders who will be young and vigorous in the elections of 1934 when the Republicans make their bid for return to power in Congress and, more important, in 1936 when Mr. Roosevelt presumably will be a candidate for re-election.

The spotlight was focused on New York state and city politics at "Farley headquarters" today by the anticipated arrival from Havana of John H. Curry, boss of Tammany Hall. Curry was coming "on his own." Farley did not send for him.

Furthermore, last night, at Palm Beach, Big Jim saw John McCooey, Tammany leader of Brooklyn.

civic betterment, and a potential source for individual advancement.

Dear Pa New:  
In your column in Monday's issue of The News someone asks the question do the churches practice "Buy American?"

Emphatically yes. The church in question employs a minister of music and he is an American. They also employ two singers of exceptional talent, also Americans. The minister is an out of town man but an American and we think a wonderful preacher. Come and hear him. It is possible for people to get the wrong conception of "Buy American."

Yours for good music.

The tail end of the blizzard, which swept through the middle-west yesterday, seems to have struck New Castle today. The weather was not so severe as reported farther west, however.

Yesterday's rainfall causing an increase in the number of street car riders. Many persons who have been walking to and from work used street cars for transportation purposes. Many automobiles have been garaged for the winter.

Investigation of the accident in which a fire truck struck the Peterson property is being continued. It is said the driver of the other truck is to be invited to appear before a committee.

which would attend them, all these things filled me with terror as I thought of them."

"Now I am home and deeply grateful that events have turned out the way they have. I hope my friends and the people of Lawrence county will believe me implicitly. I killed Harold but only in a moment of desperation when it seemed as though he might kill me. All I ask now is that I be permitted to live my life in peace so that my boy and girl can be brought up the way they should."

Parents Appreciative  
Both Mr. and Mrs. Harry A. Jones, parents of Mrs. McNeil expressed their appreciation of what had happened. Said Mr. Jones, "times like these prove the worth of friends. I can never repay the kindnesses of my friends during the past few days when I needed them. They responded nobly and now that Anna May is freed and we can go back to our normal lives I want to express publicly the appreciation I hold for those kindnesses."

Mrs. Jones expressed herself in a similar vein. The shock of the killing has not yet worn off and the agreeable shock of having her daughter freed of all blame at the preliminary hearing was almost too much for her. She expressed her appreciation simply and let Mr. Jones do the bulk of the talking.

Mr. McNeil was buried from the home of Mr. and Mrs. Jones this afternoon. The funeral services were private, only the Jones family and the McNeil family attending.

The funeral of Mr. McNeil closes an episode which shocked the community early Sunday morning, winds up the case insofar as the law is concerned and gives Anna May McNeil her freedom.

No wonder the dumb creatures get along. They can't devour the next five years of pasture this year.

## Rep. Shannon, Of Missouri, Would Have Government Cease Competitive Business

Would Aid Private Concerns Through Abolition Of Hundreds Of Federal Factories

(International News Service)

WASHINGTON, Feb. 8.—Twenty-eight recommendations for abandonment of curtailment of government activities which compete with private industry were made to the House today by a special committee. Rep. Shannon (D), of Missouri, chairman, emphasized the report is one of several to be made.

"The policy motivating these extraordinary activities seems to have been 'once a bureau, always a bureau.' No bureau or agency that has ever been created has surrendered its power and prerogatives without a struggle," the report declared.

Outstanding in its recommendations are: Abandonment of the Army and Navy transport service.

Equalization of loan rates by the farm board to all borrowers.

Abandonment and sale of the Federal barge line to private interests.

Abandonment of post exchanges, commissaries and canteens, except for isolated localities.

Army-Navy Supplies  
Abandonment and sale of Army and Navy clothes and supplies factories at Philadelphia, Brooklyn and Jeffersonville, Ind.

Award to private industry of dredging, harbor work and levee work on competitive bids.

Prevention to private business of the manufacture of paste, mucilage, blank books, and so-called "shell items," now made by the government printing office here.

Discontinuance of the post office department practice of soliciting parcel post business, and placing rates to cover the entire cost of the service.

Use of private, municipal and other hospitals for veterans' administration patients, and no new government hospitals for that purpose.

Prison Production  
Discontinuance of ship and cargo salvaging by the coast guard.

Discontinuing printing of private return envelopes.

Restriction of prison mass production and developing industries which do not compete with private enterprise.

Abandonment of paint and varnish making in navy yards.

Centralizing all architectural work. Preventing service bands from playing for added pay or where admissions are charged.

Award to private industry of all arsenal and navy yards activities which would not cripple national defense.

Abandonment, as far as possible, of government activities concerning helium production, laundries, lumbering, the restaurant business, warehousing activities, and production of medical supplies.

Establishment of cost accounting for the government.

Prevention of private practice by farm board veterinarians.

## COUNTY BUDGET IS PRESENTED BY CONTROLLER TODAY

general fund, and \$234,296.23 poor fund.

Basis for Taxation  
The estimates made by the controller are for the purpose of giving the county commissioners ideas for the preparation of their budget for 1933. The commissioners will no doubt find changes which they will deem it desirable to make. Commissioners went to work immediately on the budget this afternoon.

The total valuation of the county is about \$74,000,000, which will be taken as a basis for the tax millage. Figures given by the controller present a basis for a sizeable tax reduction this year, if accepted by the commissioners.

Nagging pains in your side may be signs that internal poisons are robbing you of your health. Don't gamble with dangerous drugs. Don't neglect these danger signals which may mean the surgeon's knife or a long-drawn out expensive illness.

Give the harmless Cream of Nujol treatment a chance to start you on the road to health. This new form of Nujol is specially recommended for ridding the body of intestinal poisons. It never causes gripes or cramps. Never interferes with work or play. Best of all it costs you only a few cents a day to rid your system of these poisons and to keep your bowels clear.

Make the new harmless Cream of Nujol treatment a regular, daily habit, and in a short time you will realize why thousands would never be without it. It's delicious to take. One bottle will give you more than two weeks' treatment. Stop at your druggist's and get a bottle tonight.

## Sheriff Startled By Crash Of Glass, Checks Prisoners

During the high wind last night Sheriff Frank Johnston was startled by a crash of glass. He rushed to the roof of the county jail to see if it was the skylight, but found it intact. He then checked up on the prisoners, but found them all in their cells. Finally he found a window broken in the west side of the jail, but could not determine the cause.

It was explained this morning when he found a piece of cement about six inches long and two inches wide on the ground under the window. Investigation showed that it had been blown from a chimney of the court house during the storm. The chimney will be pointed up as soon as the weather moderates.

## Plans Ready For New Gym Term Of New Castle Y. W.

Tomorrow night marks the beginning of a new term for the health education class of the local Y. W. C. A. Launching a series of fifteen lessons, the class, under supervision of Mrs. Walter Hutchison, will be conducted from 7 to 8 o'clock in the gymnasium.

Yesterday the health education committee, of which Miss Mary Bigley is chairman, met for discussion of the new gym term plans. Looking back on the last fifteen lessons the committee was greatly pleased at its successfulness. A splendid program of exercise and diet was carried out for the purpose of building health and regulating the weight of the women in the class.

One member who was overweight lost 25 pounds during the term. Her weight dropped from 166 to 141 pounds under the exercise and diet supervision offered by the instructor, Mrs. Hutchison. The diet and exercise is regulated so that weight is not lost in too short a period.

Considerable number of women joining the health education class of the Y. W. C. A. do so not to lose but to put on weight and gain health and strength. Individual attention is given them; each member of the last year's term is pleased with the results of the course.

Information concerning the class may be received by calling the Y. W. C. A. today or tomorrow.

Both branches adjourned until Monday night, the senate acting on seven bills on the second reading calendar and completing other routine business. So final action bills were considered in the upper branch.

Included in the list advanced for final action next Monday was the Mansfield bill to reduce by 15 per cent the salaries of all elective and appointive employees paid from county treasuries.

The Howlett bill which would place sheriffs in seventh class counties on a flat salary of \$3,000 instead of a fee basis was reported from committee and advanced to second reading. There are 17 seventh class counties.

While showing willingness to act upon salary reducing measures for other classes of public employees, the senate permitted the judicial salary cutter to remain on the postponed calendar.

## GOVERNOR PINCHOT PLANS TO ADDRESS STATE LEGISLATURE

(Continued From Page One)

adopted a resolution providing for the appointment of a commission to delve into the legal tangles which congressional action may create by modification of the Volstead act of repeal of the 18th amendment.

The state's leading attorneys are in disagreement as to the effect which federal repeal or modification might have on Pennsylvania's control of the liquor traffic.

The commission created under the resolution would make a study of the situation and report to the assembly. Rep. Chester H. Rhodes, Monroe, sponsored the measure, which provides for the appointment of three members of the speaker of the house, two by the senate and two by the house.

Rep. Clinton Sowers, Philadelphia, fought the resolution on the floor and criticized Gov. Gifford Pinchot's position as a "dry." Another Philadelphia member, however, Rep. Philip Sterling, pleaded for adoption.

Legislators and others who are viewing the unemployment relief situation with uneasiness witnessed a development they considered as favorable as it was unusual.

Sponsor Relief Bill  
Rep. Arnold Blumberg, Philadelphia Republican, and Rep. Wilson G. Sarig, Democratic floor leader, jointly sponsored a bill providing for an appropriation of \$25,000,000 to the state emergency relief board.

The funds would be paid to the board in monthly installments over a two-year period, beginning April 1, next. The board in turn would allocate the money to counties on a basis of unemployment. County relief boards could use the money for direct or work relief.

The house held up the bill of Rep. Norbert J. Fitzgerald, Erie, which would abolish constable returns to court in fourth class counties. It will be amended to extend application to all but first class counties and is scheduled to appear for final passage Monday night.

Blocks Inaugural Expense Bill  
Rep. Hiram G. Andrews, Cambria, lone member of the independent citizens party, took the responsibility of blocking temporarily a resolution providing for the participation of five members from each branch of the assembly in the presidential inauguration ceremonies on March 4.

Rep. J. G. Steidle, Allegheny, proposed the measure and asked for unanimous consent for its immediate consideration. Andrews objected and the speaker was forced under house rules to lay the bill aside for printing.

Steidle offered another bill providing an appropriation of \$2500 to cover the expenses of the governor and legislative committees who will participate in the inaugural ceremonies.

Both branches adjourned until Monday night, the senate acting on seven bills on the second reading calendar and completing other routine business. So final action bills were considered in the upper branch.

# NEW HAIR VOGUE RAGE IN NEW YORK

NEW YORK'S most popular girls—by thousands—are talking about the new way they are doing their hair to make it soft, lustrous, beautiful.

This way takes just a moment; but how it helps!

All you do is put a little Danderine on your brush each time you arrange your hair. That removes oily film; brings out the natural color of hair; gives it new sparkle and life!

The first applications dissolve the worst crust of dandruff. The hair becomes softer, fluffier; is more easily arranged when Danderine is used. And it stays in place for hours.

Danderine cleanses hair and scalp. Soothes the scalp. Invigorates hair roots. Helps hair grow longer, thicker and more abundant. A fragrant necessity for the well-groomed girl!

## CAN'T WE GROW OLDER MORE CHEERFULLY?

At last, after all these years, she has to wear glasses.

And she does not like it. She doesn't like the drops in her eyes. She doesn't like all the fuss and trouble. She thinks "the beginning of the end," having "her only nice feature veiled, hidden, ambiguous behind her lenses." And why don't I write an article on "The Agony of Growing Old"? She means why don't I write one for her because it isn't quite so bad for men.

All right, I'll do it. But I don't think there's any agony in growing old unless you think there's agony in it. Perhaps I'm not old enough, but I don't remember when I ever thought I was young. A boy thinks he's old. A man in his twenties thinks he's ancient. And by the time a man gets into his thirties and moves on to forty, he feels that life is racing past him and it's but only a couple of minutes until he's an antique old codger.

The trouble comes from idealizing one stage of life and sneering at the rest of it. Youth is lively and inquisitive, and strong, but it isn't everything. Youth suffers agonies, too, and they may be far more terrible than the agonies of age. But if a man or a woman thinks only of youth and what it was like to be young and active, then the approaching years wear a ghastly face. A very Medusa of a face that can turn all joyful thoughts to stone.

Growing old may be worse for a woman than for a man. I know that many women think so, and that's partly the fault of the men and considerably the fault of the women.

Too many men—and I think American men—may emphasize youth in women at the expense of more mature qualities.

But too many women seem to think that the only precious part of the lives lies in the years that are flying so swiftly away.

They think about that too much. I have known happy old men and happy old women and I do not think they were happy because they were "resigned" or had "given up."

I don't think they were stupid nor were fooling themselves into cheerfulness. I think the truth is that they knew how to be happy at any age. They were happy as children, happy as young people and happy in the later years. Regardless of aches and pains and creakiness and the sorrows that had come to them in the routine process of living.

And when we are old we should all be like these happy old people I have known.

P. S.: On second thought I'm sure that men suffer greater agonies than women as they grow old. Because they have more vanity.

## SYMPATHY AND PAIN

Because you have had contact with some person who too often sought sympathy and were hurt if you did not give it, or they did not receive it elsewhere, is not a good reason why you should withhold all sympathy.

It is a fact that some are always complaining and about so many trivial things that friends and relatives reach the point where they offer no words of sympathy.

And it is especially true, if the one who makes the most fuss over aches and pains, does it to one who suffers something much more severe, without murmur.

Complaining about little things is an easily required habit.

It is a hard-to-break habit. Some folks are ready to die at the first hard pain and imagine dire results with every little hurt with which they are afflicted.

Imagination combined with ailment is likely to enlarge the ailment in the mind's eye till it becomes a painful torment.

It is painful to live, says one mother to her child who shrieks with a toothache or some other trivial ailment.

It is a good thing to get that idea firmly entrenched and be prepared to stand pain when it is necessary like a person of courage must.

Pain is a warning, of course, so get help but not sympathy.

But don't withhold deserved sympathy.

## THE BREAD LINE

They stood in line and shivered and the man in the middle said:

"Tell me the way to do it. Do I ask them for soup and bread?"

Will they question my name and address? The two of them looked at him o'er

And one of them spoke up quickly: "Have you never been here before?"

"Never," the poor man answered. The man in the front turned round.

"You've always been used to commons! Now the pain of the poor you've found."

And the man just behind said: "Easy!" Don't jibe at him any more.

The bread line is cruel business if you've been there before.

"You and I know no better; we've always worn clothing thin. We've always been poor and lowly; we can stand in the line and grin.

We are used to this bitter business—but here at this kitchen door Let's help him to get his breakfast—he's never been here before!"

## Relief Of Mortgaged Farms Described As Good Business

Insurance Companies And Banks Commended For Efforts To Keep Farmers Of Country On Their Lands

Response of insurance companies and banks to farm demands that foreclosures on mortgages be modified has met with much approval. It is widely recognized that foreclosures for failure to make payments to creditors accomplish little. Removal of the farmer from his land, it is pointed out, may be detrimental to both creditor and debtor. Ability to pay is set up as the standard for arrangements that are to be made.

"What the farmer most wants in this emergency is time," declares the OMAHA WORLD-HERALD. "The insurance companies seem disposed to grant this, even without special pleading, where it can be done without prejudicing their interests against the claims of junior creditors. In the long run the policy is to be best for the creditor himself as well as for the debtor. The insurance companies do not want land. They cannot use land. They want only safe investment for the money of their policyholders, in which they are the custodians. In general their attitude respects the fact that they are selected by carrying the farmer than by foreclosing him where the situation isn't complicated by other borrowings."

"If the problem is to be solved by private negotiation," advises the CHICAGO DAILY NEWS, "the debtor must co-operate fully and fairly with his lender creditor. For example, no solvent farmer whose income is sufficient to meet his just obligations should be permitted to take advantage of a general moratorium on farm-mortgage foreclosures." The Daily News also notes that "lenient treatment of overburdened debtors is gaining momentum," and continues: "Fortunately for the insurance companies, they have reduced their holdings of farm mortgages considerably in the last eight years. In 1923, 18.7 per cent of the investments of the fifty-two largest legal-reserve companies was in that form of security. At the end of 1932, the ratio had dropped to 8.8 per cent. The percentage of farm mortgages in default has not been made known but it is undoubtedly low. Real estate of all types held by the old-line insurance companies rose only \$242,000,000 in the last three years, chiefly through foreclosures, while the total of all mortgage investments averaged a little below \$7,000,000,000 for the period."

"An efficient farmer, on and working his farm, contributes more to the national well being than if he is forced to join the army of unemployed," says the WALL STREET JOURNAL, while the MILWAUKEE SENTINEL warns that "it is vital that the interests of all be considered rather than to rush into some blanket scheme which will help a few, give to others a temporary palliative that will result in heavier loss in the long run, and open the door to widespread abuses." The PHILADELPHIA EVENING BULLETIN agrees that "it is not a matter of sweeping cancellation, although one of the requirements of the restoration of business is that some of the existing debts shall be written off."

In the Pacific States weather data running back to the year 700 A. D. have been found in the trunks of the giant sequoia trees of California by Dr. Andrew E. Douglass, director of the Steward Observatory, University of Arizona.

"These scientists," the Smithsonian Institution stated last June, when announcing Dr. Antevs and Douglass as winners of the Research Corp. prize of \$250 for effective scientific research, "have succeeded in dating the prehistoric part of the earth by what are unquestionably the two most original and the only exact methods yet developed. They have reconstructed a picture of the changes in the earth's weather, year by year, for thousands of years."

WEATHER is well known to have definite effects on business in some ways, stimulating the sale of clothing and fuel, for example, in cold winters, of umbrellas and raincoats in rainy seasons, of ice cream and bathing suits in the summer time, etc., and retarding seasonal business when the weather goes awry.

There may be something more than this, however. Fortune Magazine, charting the mean average temperature of the United States for 100 years and plotting a business activity line on the same chart, finds that every boom came along with abnormally cold weather and every big depression but one was accompanied by abnormally warm weather.

What can we make of this? Cold, perhaps, stimulates people to extra activity, and heat makes them sluggish. But would this physical fact account for the whole complex group of phenomena making a boom or depression?

There are other mysteries, too. Some observers have seemed to find a connection between economic curves and rainfall, between business depressions and low levels on the Great Lakes, between lake levels and sunspots. Can the sun be responsible for the whole puzzling system? Or do people affect the weather? Or what? Here's another opportunity for Prof. Einstein.

## LABOR OPPOSES RECOGNITION

The apparent swing toward recognition of Soviet Russia, which has been noticeable during the last few months, has met opposition from the American Federation of Labor. William Green, the president, points out that domestic labor "would suffer through importation of goods produced under intolerable conditions."

That view is held by many who cannot see where resumption of trade with the Soviets would help American industry. This nation is already suffering through competition with goods produced by cheap foreign labor elsewhere. If the gates are opened for goods produced under the conditions which exist in Russia, American industry will suffer additional body blows.

Whether it would be to the nation's advantage to increase its foreign trade at the expense of other industries is the question involved in recognition. If American goods are sold, Russian goods must come in. If they do come in they will surely affect the industries whose products they are displacing.

## WOMEN IN THE NEXT WAR

Amelia Earhart, to use the name by which the famous aviatrix is popularly known, believes that if another war comes the women should be enlisted for actual fighting says the McKeesport News. While opposed to warfare, she is of the opinion that women may be more desperate fighters than the men.

The history of this country is replete with incidents in which women figure as heroes in time of war. Their courage is as great as that of the men. They have proved that many times. Unflinchingly they meet some ordeals which would cause the bravest man to shudder. And when a woman becomes desperate something is going to happen.

Despite that, however, the average American does not like to picture women fighting with arms and taking human life. Not that they couldn't hold their own, but because man has built around the opposite sex qualities which are just the opposite of those brought into play in armed combat. If it should ever become necessary there is no doubt but that American women would take up arms for their country. Flyers like Miss Earhart would be of great service in aerial combat, and it is predicted that the next war will be fought in the air. But it is to be hoped that such a time never will come. Women and men fighting side by side on the battlefield would be equal suffrage with a vengeance.

## JIGSOCRACY

The public correctly sized up "technocracy" by saying that something had to be found to fill the place left blank by mah-jong, midge golf and the Eugene hat. And now that technocracy, as something fashionable to wear on the inside of our heads, seems to be hastening toward the happy, ashen hunting ground of those earlier delights, shrewd observers are scanning the horizon for the appearance of the next game, cult or headgear to throw American brain cells and the American front page into a jolly temporary whirl.

We may be premature, but we think we have spotted it. Not exactly on the horizon—in fact, much nearer the neighborhood of our own blind and stumbling feet, where it—U. S. Fad No. 393—has enjoyed a subterranean, dormant popularity for decades, possibly even centuries. But the same thing was true of the cross-word puzzle—from a gently smoldering condition in the back pages of a few newspapers the cross-word puzzle suddenly burst into flame and swept the country. And so it is with (now we are about to reveal the name of our candidate) the jigsaw puzzle. Ever since the dawn of the Machine Age children and elderly

## Property Transfer Under Limelight

Alleged That Mrs. Bibiaz Deed Property Away to Escape Paying Verdict

Arguments on a motion to dismiss a bill in equity in the Madeline Bibiaz case were heard before Judges Hildebrand and Chambers at court Tuesday. Some time ago a jury awarded Samuel Clark \$5000 damages for injuries sustained when a tree standing on the Bibiaz property fell upon him as he was returning home from school. It was claimed that the tree was dead and stood near an alley back of the Bibiaz property on Pennsylvania avenue.

The bill in equity set forth that when the suit was threatened Mrs. Bibiaz conveyed her property to her children, and that there was no consideration for the conveyance. It is also claimed that while the case was pending M. J. Bibiaz, a son of Madeline Bibiaz, filed a note against her for \$2200. Another note for \$1000 is alleged to have been filed by Anthony Wolan. It is alleged that both of these notes were given without consideration. It is asked that the conveyance of property by Mrs. Bibiaz be set aside.

## Income Tax Share Of Pennsylvania Is Below Average

With Almost Eight Per Cent Of Population, Taxes Are Only 6.5 Per Cent.

By ARTHUR C. WIMER  
Special Washington Correspondent Of The New Castle News  
WASHINGTON, D. C., Feb. 8.—From the viewpoint of population, the state of Pennsylvania paid slightly less than her fair share of the federal tax burden in 1932, it would appear from an analysis of census figures along with tax data made public this week by the commissioner of internal revenue.

Federal tax payments in Pennsylvania last year totaled \$92,699,800. Such collections amounted to \$1,420,068,593 in the country as a whole. Of these total payments, only slightly more than 6.5 per cent came from the Keystone state.

Pennsylvania, on the other hand, had more than 7.8 per cent of the population of the country. This comparison seems to indicate that the Keystone state paid slightly less than her fair share of the 1932 federal tax burden.

## The Governor Says

What Is Going On In Harrisburg—And Why

By GIFFORD PINCHOT  
Governor of Pennsylvania

My plan to take over the remaining 53,000 miles of second class township roads, will save the local taxpayers at least \$18,000,000 every two years. And that much money is certainly worth saving these days. The taxpayers will be better off. But manufacturers of road materials, makers of trucks and road machinery, some township supervisors, politicians who have their eyes on 1934—all acting through their agents in the Legislature—have been laying down a heavy smoke screen during the last few days. Saving millions to the taxpayers does not interest them. Other things do.

From 1915 to 1932 Pennsylvania townships of the second class collected more than \$150,000,000 in road taxes and spent it. In 1931 alone they collected \$11,517,978.30. What have they done with it?

Grove Township, Cameron County, has seven-tenths of one mile of road. The auditors' report for 1932 shows that the supervisors spent \$294.10 for "repairs to earth roads," \$25.20 for new culverts, \$384.60 for wages of roadmasters, \$121.60 for supervisors for attending monthly meetings, and \$85.90 for repairs to a truck. Altogether they spent \$1,098.16—and they have only seven-tenths of a mile of road to spend it on.

Hamlin Township, McKean County, has less than fifteen miles of dirt roads. But the auditors' report published in December shows that the supervisors collected \$16,800.71 and spent all but \$63.99. Roadmasters got \$2,750, the secretary and treasurer \$329.54, supervisors \$144 for attending meetings and \$29.72 for attending a convention, and a bank received \$8,796 on a note. The cost of new tools and machinery, and repairs to machinery, was \$1,367.74. Out of \$16,800.71, \$1,379.59 was spent for repairs to earth roads—not a very heavy percentage.

Last year Parks Township, Armstrong County, collected \$9,393.88. The auditors' report shows that 43 per cent of it went for conventions,

## Stubborn Coughs Ended by Recipe, Mixed at Home

Saves \$2. No Cooking! So Easy!

Here is the famous old recipe which millions of housewives have found to be the most dependable means of breaking up stubborn coughs. It takes but a moment to prepare, and costs very little, but it positively has no equal for quick, lasting relief.  
From any druggist, get 2 1/2 ounces of Pinex. Pour this into a pint bottle and add the bottled granulated sugar syrup, made with 2 cups of sugar and one cup of water, stirred a few moments until dissolved. No cooking needed—it's so easy! Thus you make a full pint of better remedy than you could buy ready-made for three times the cost. It never spoils and children love its taste.  
This simple mixture soothes and heals the inflamed throat membranes with surprising ease. It loosens the germ-laden phlegm and eases chest soreness in a way that is really astonishing. Pinex is a highly concentrated compound of Norway Pine, the most reliable healing agent for severe coughs. It is guaranteed to give prompt relief or money refunded.

## Your Income Tax In A Nutshell

NO. 9  
WHO IS THE HEAD OF A FAMILY

A taxpayer, though single, who supports and maintains in one household one or more individuals who are closely connected with him by blood relationship, relationship by marriage, or by adoption, and whose right to exercise family control and provide for the dependent individuals is based upon some moral or legal obligation, is the head of a family, and entitled to the same exemption allowed a married person—\$2,500. Also he may claim a \$400 credit for each dependent. For example, a widower who supports in one household an aged mother and a daughter 17 years old is entitled to an exemption of \$2,500 as the head of a family, plus a credit of \$400 for each dependent, a total of \$3,300. The \$400 credit, however, does not apply to the wife or husband of a taxpayer, though one may be totally dependent upon the other.

Several factors are involved in determining whether a person who files a return as the head of a family is to be thus classified. The element of either legal or financial dependency must exist. A taxpayer who supports in his home minor children over whom he exercises family control is classified as the head of a family, even though the children may have an income of their own sufficient for their maintenance. If he does not support them, by reason of his own income, but does exercise family control, he can not be classified as the head of a family.

If an individual supported is an adult and there rests upon the taxpayer a moral or legal obligation to provide a home and care for such individual, the exemption as the head of a family is allowed, provided the individual is financially dependent. If the individual is not financially dependent, the exemption, even though the taxpayer maintains the common home and furnishes the chief support, does not apply.

For income tax purposes there can be only one head of a family and the exemption can not be divided. Not infrequently claims for the \$2,500 exemption are received from two or more members of a family.

It should be remembered that a single person, whether or not the head of a family, is required to file a return if his or her net income for 1932 was \$1,000 or more, regardless of whether the return is nontaxable by reason of the \$2,500 exemption.

Attorney Alvah Shumaker, addressing the initial organization meeting of a new body of Lawrence county lawyers—officially called "The Inns of Court"—declared that "a sordid practicalism sometimes leads us astray to think of the law only as a business. We believe that in this group we can rekindle individually and collectively our interests in the law as a profession. From the lawyer group, meeting in The Castleton, was inaugurated a legal study forum to which all Lawrence county lawyers may retire. Attorney Clarence A. Patterson was named president; Attorney Charles G. Martin, vice president, and Attorney Edwin K. Logan, secretary.

## Doctor Admits He Escaped From Big Asylum In Germany

Coast Immigration Officials Question Dr. Dathe About Lindbergh Kidnaping

(International News Service)  
LOS ANGELES, Feb. 8.—While immigration authorities sought to ascertain if he had any knowledge of the kidnaping and murder of the Lindbergh baby, Dr. William Dathe, 47-year-old German, Tuesday surprised authorities by declaring that he had escaped from a German insane asylum in 1914, federal officials said.

Dr. Dathe, arrested here when found in charge of little Hedwig Doe, six-year-old mystery girl, also asserted that his father committed suicide and that his mother, whom he named as Baronin Victoria Wolff von und zu Todenwirth, is now confined in a German insane asylum.

## IT'S FUN TO BE FOOLED... IT'S MORE FUN TO KNOW!

Here's a magic trick from cigarette advertising called "Cigarettes and Your Throat." EXPLANATION: A cigarette has to use choice, ripe tobaccos to be easy on your throat.

Cheap, raw tobaccos are harsh and irritating. No "treatment" can do more than mask their rasping effect.

And there is an irritating dust, naturally present to some degree in all tobaccos. Camel removes this peppery dust by a special vacuum cleaning process.

And even more important is Camel's matchless blending and its more costly tobacco.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, more expensive tobaccos than any other popular brand. Choice tobaccos tell the best story of throat ease!

# Coroner's Jury Also Exonerates Her Of Shooting

(Continued From Page One)

ing was due to start, and police guarded the door, admitting only those who were connected with the case. These alone filled the courtroom. The witnesses were sworn in groups by Coroner Orville Potter and Adelman Mantz, in order to expedite matters. Arthur H. Carpenter of 309 Pine street was the first witness examined. He told of having spent the greater part of Saturday afternoon with Ernest Webber and of meeting Harold McNeil in company with Webber about 8 o'clock Saturday evening, when McNeil invited them to come to his home. The three of them went to Webber's home and then they drove uptown, where they left McNeil out. He and Webber then drove to the home of Miss Grace Morrissey, with whom he had been keeping company, and got her, after which they drove uptown and about 9 o'clock got Mrs. Webber after she had finished her work at a downtown store. They then drove over on North Mill street and picked up McNeil and the five of them drove out of the McNeil home near Walmo. It was around 10 o'clock when they arrived there, Carpenter stated, as it is about a three-mile drive out to the McNeil home. Mrs. McNeil was there, he stated. He had not known her very well, nor was he very well acquainted with McNeil, having been out to his home only about three or four times in the year or two that he had known him.

**Had Some Highballs.**  
They played the radio, danced, got some sandwiches and ate during the course of the evening, Carpenter stated. After they had been there about an hour or a little more, they had some highballs, the witness said. No one became intoxicated, however. He had danced with Mrs. McNeil and Mrs. Webber, but was not certain whether he had danced with Miss Morrissey or not. The witness did not recall any particular conversation, and stated that he had not seen McNeil dance with his wife during the evening. McNeil seemed quite sullen all the time they were there, he said. He had cut his lip and the witness said that he had asked him several times how he felt or how his lip was and that McNeil had replied, "all right".

**Heard No Altercation.**  
He had heard no altercation between McNeil and his wife during the evening. They left at 1 o'clock or thereabouts after exchanging the usual pleasantries one does on leaving.

Around 1:45 or 2 o'clock in the morning, he stated, Mrs. Webber had called him and told him that Mrs. McNeil had shot her husband and asked him to take them out to the McNeil home, which he did. They arrived around 2 o'clock, he stated.

On cross-examination by Attorney Samuel L. Clark, attorney for Mrs. McNeil, Carpenter stated that McNeil had told them that he had a little liquor out at the house and for them to get some ginger ale. They had stopped on the diamond and bought some gin-rickies before they went out to the McNeil home.

**Asks About Drinking.**  
He was asked whether McNeil had been drinking before they met him, and he said he didn't know as McNeil had reputation for holding his liquor well and gave no outward appearance of having drunk much when he was drinking. Dr. W. D. Cleland was next called. He stated that he had examined McNeil's body at Leyde's undertaking rooms on Sunday morning. He was dead, the witness stated, and the resulting examination showed death had been caused by internal hemorrhage of the peritoneal cavity, due to a gunshot wound. Dr. Paul Wilson, who performed the autopsy with Dr. Cleland, traced the course of the bullet. It had entered the abdominal wall near the

center of the body went through the right lobe of the liver, passing the large vein in the liver, passing the right kidney, the 11th rib and lodged about an inch and three-quarters from the spine. Internal hemorrhage had been the cause of death, he said, caused by the bullet wound.

**Other Guests Testify.**  
Miss Grace Morrissey related the same story as Carpenter, as to the events preceding the shooting. She had been called on the phone by Carpenter around 8 o'clock and had been asked to go to a party at the McNeil home. She had known Carpenter for the past six years and they were close friends, she said. The Webbers she had known for three years and the McNeils she had only known slightly. Ernest Webber of 719 East Long avenue told of being with Carpenter during the afternoon and of having gone to the McNeil home around 5 o'clock, when he borrowed Carpenter's car to make the trip. McNeil invited him to come out to the house that evening, and he said he didn't know whether he could arrange it or not, as he had no means of getting out. This he later arranged by inviting Carpenter to the party, and he had taken them.

**Went For Food.**  
After they had been at the home a short time and had a round of drinks, it was suggested that they have something to eat, and he and McNeil had come in town to get the food. McNeil slipped and fell in front of the store, cutting his lip, Webber stated. Asked whether McNeil's actions indicated that he was drunk, he said they did not. After they had eaten, McNeil seemed to turn sullen and took no interest in the party. Webber said he asked him if he wanted them to go home, and McNeil had said no, for them to stay and enjoy themselves.

The girls had not drunk any of the highballs, Webber stated, and the three fellows had drunk three during the course of the evening.

He had danced with Mrs. McNeil at her invitation, Webber said.

**Mrs. Webber Testifies.**  
Mrs. Webber related the same story as her husband. When asked to describe McNeil's actions during the evening she said he had been sullen. She too, had asked McNeil if he wanted them to go home, and he had said no.

She said Mr. and Mrs. McNeil had danced together and during the course of the dance it seemed to her as if McNeil had deliberately trampled Mrs. McNeil's foot. McNeil had mixed the drinks for the party as soon as they arrived, and she and Miss Morrissey had set and held theirs in their hands. When her husband and McNeil had gone in town to get something to eat, they poured the drinks down the sink, she stated.

She said Mrs. McNeil had asked her to stay all night when they were preparing to leave, stating that she was afraid of him.

**Asked To Stay All Night.**  
"Oh Toots, stay with me all night. I'm afraid of him," were the words Mrs. McNeil used, the witness said. She had replied, "Oh Ann, I can't. I can't get worded up by folks and they will be worried about me." Mrs. McNeil's phone had been disconnected, she said, and she could not call her home. Mrs. Webber told of Mrs. McNeil relating instances of abuse at the hands of her husband, the two girls having been most intimate friends. Joseph Leyde and Theodore Stritmatter related having been called to the McNeil home for ambulance service and of finding McNeil dead when they arrived.

**Neighbors Testify.**  
Mr. and Mrs. William D. Snyder, Arthur Gray, their son, and Mr. and Mrs. Thomas Richards testified to Mrs. McNeil calling them to her home after the shooting.

Mrs. McNeil had awakened Mr. and Mrs. Snyder by beating on their door, crying "Mr. Snyder, let me in, let me in." They live across the road from the McNeil home, they stated. After he had come to the door in his night clothing and let Mrs. McNeil in, she had cried out "My God, I shot Harold," Snyder testified. He told of arousing Mr. Richards and of then going over to the home and ministering to McNeil while his wife and Mrs. McNeil called the doctor. Mrs. McNeil had preceded him in going back to her own home, and had secured scissors for him to cut open McNeil's shirt, and wash cloths, water, etc., for him to take care of the wound. A little later, Tom Richards came over and McNeil seemed to recognize him and said "Tom, I am done for." He had also asked for a drink of water, which was given him.

# White House His Future Home

Just like his historic namesake took Richmond, "General Grant," a prize-winning English bulldog valued at \$2,000, is all set to take Washington by storm. The dog is shown on board a plane at Burbank, Cal., as he said goodbye to six of his sons and daughters before taking off for the capital. He is a present from an El Monte, Cal., breeder, to President-elect Franklin D. Roosevelt. Stewardess Claire Cook is looking after the White House bone polisher in transit.

and had slippers on her feet when she came to their home. They went out of the house to try and arouse Mr. Richards, and she remarked, "Mrs. Snyder, listen to my baby crying."

She awakened her son and he and Mr. Richards went over to the McNeil home, while she dressed. Her son came over after her and said Mrs. McNeil wanted her to call Mrs. Webber. She then went over and helped Mrs. McNeil dress herself and her baby.

She said Mrs. McNeil had related the details leading up to the shooting. Mrs. McNeil had said, "He called me a cheap little — and I shot him. Life had been hell for me for a long time," Mrs. Snyder said. Mrs. McNeil told her.

Mrs. McNeil had a bruised eye, a scratch on her right cheek and a spot on her chin, Mrs. Snyder stated, when she saw her that night.

**"I'm Done For."**  
Tom Richards, who lives across the road from the McNeil home, told practically the same story as Snyder. When he got over to the McNeil home and saw McNeil he had cried out, "Tom, I'm done for."

Richards said he tried to minister to him and rubbed his hands and bathed him, talking to him in the meantime. Just before he died he turned on his right side and said, "Let me rest peacefully."

When he was dead, he went into the bathroom and Mrs. McNeil asked him if he thought he would live. Richards said he replied, "No, I think he is dead," and she collapsed against him and he tried to soothe her.

Paul Engle, state policeman, told of being called to go to the McNeil home in company with Sheriff Frank N. Johnston, and of Mrs. McNeil refusing to talk, stating that she had been instructed by her lawyer, Mr. Clark, not to say anything.

**McNeil's Father Called.**  
W. J. McNeil, father of the dead man, was called. He lives at 5 Atlantic avenue at the present time, he stated.

He told of Mrs. McNeil telling him on Christmas day of the trouble she was having with Harold. It was news to him, Mr. McNeil said, and he had told her that she should not put up with it, as "No woman ought to live with any man who beats her," he had told her.

"She is a good cook and has two wonderful children, and I am proud of them and her," McNeil stated. Asked by District Attorney Powers what he thought about the affair, McNeil said:

"I have lost a son by it. I can't conceive, however, of Ann getting a gun and deliberately shooting him. Mr. Clark asked, "You don't think Anna May is to blame for the shooting then?"

**"Didn't Intend To Kill Him."**  
"Well, of course she is to blame," McNeil said. "I don't think she ever intended to kill him though. As far as me and my daughter are concerned, we don't intend to prosecute her. We have known her since she was a little girl and I never knew of her to do anything out of the way. Prosecuting her would not bring my son back and there is no use in us persecuting her. I think she is a wonderful little girl," McNeil said in conclusion.

McNeil was asked if he and his son had been friendly towards each other, and he replied that they had always been inseparable, "just like two pals". Mrs. Alice Clinefelter, sister of Harold McNeil, also testified in behalf of the accused woman.

She said she had known Anna May for 20 years. She had known of the trouble between her brother and his wife. Harold had been drinking a little every day for a long time, she stated, which seemed to keep him stirred up. Drink never made him jealous, but seemed to make him want to pick on his wife. She had known of occasions when Harold had beaten his wife, she said.

**Breaks Down.**  
"Do you think she deliberately shot your brother?" she was asked. "I can't see how," was the reply. "I feel very sorry and ashamed about it," she said as she broke down and wept. "I believe her story, and knew the disposition of my brother, and think she did not deliberately kill him."

"I was terribly ashamed of the way my brother treated her and told her that I thought he could be ashamed. I told her she ought to tell her father and maybe he could make him stop abusing her. I said, 'Ann, why don't you get away from him.' She said, 'I'm so nervous, I'm mor-

him, saying, "You are just as yellow about shooting me as you have been yellow about everything else in your life."

**Reaches For Gun.**  
"He said, 'I have beaten you before, but that is nothing to what you are going to get now.' He came closer and was reaching for the gun. I knew if he got the gun he would shoot. I meant to shoot at the floor. I thought if I hit him in the foot or the leg he might let me alone."

**Gun Is Fired.**  
"When the gun went off I was surprised as I didn't know I could pull the trigger. I had tried it one Fourth of July when my father had the gun out and I couldn't pull the trigger then. He stumbled backwards and fell on the bed, his head at the foot and his feet hanging over the edge. I came and looked at him and saw the powder burns on his shirt. I went downstairs and put the gun on the table at the foot of the stairs. Little Lee came down and I told him to go back upstairs with his daddy. I screamed for Mr. Richards, but he couldn't hear me. I knew Snyder had a phone and I went over to call a doctor."

"When we came back I went upstairs and got the things for Mr. Snyder. Harold called my name and said, 'Ann, a drink of water.' I asked Mr. Snyder if I should give it to him, and he said 'yes' and I did. I think Mr. Snyder or Mr. Richards gave it to him."

On cross examination, she stated that while he was attacking her in the bedroom she screamed the baby's name, thinking that if the baby cried he wouldn't hit her. She had aimed down at the floor, thinking if the bullet went down it wouldn't do so much harm. She couldn't account how the bullet had struck him in the chest.

**Doctor Testifies.**  
Dr. G. E. Seal was called and told of treating Mrs. McNeil for numerous beatings her husband had given her. On one occasion, he testified that she had a slight concussion of the brain.

He had operated on her for appendicitis several years ago and after the operation had found her washing clothes in her home. He said she had told him her husband would not pay anyone for doing it and made her do the washing. Dr. Seal stated that he had told McNeil she was not to do anything of that kind.

In the past year to 18 months, Dr. Seal testified that he had taken care of her as many as eight or ten times. These were for such injuries as could have been caused by beatings, he stated.

Mrs. Marjorie Brinton of East Washington street told of hearing Mrs. McNeil scream one night last summer, and of asking Mrs. McNeil about it the next day. She said Mrs. McNeil had told her that it was her screaming, but that Harold had put his hand over her mouth and shut the door so they wouldn't hear her.

She told of marks of beatings, which Mrs. McNeil had passed off as accidents. "I thought she was a wonderful girl. She never did anything out of the way, while I thought she had occasions to put him back," Mrs. Brinton stated.

E. F. Van Dyke testified that he had been an intimate friend of McNeil's and had roomed with his father. He came into the store where he was working on Saturday night and seemed to have been under the influence of liquor. He had been with McNeil on numerous occasions when he was drinking. It made him strange, but he could always walk straight, and it never affected his tongue or gait.

He had told Van Dyke that he was going to try and get away from her as soon as he could get enough money.

**Asks Acquittal.**  
While the coroner's jury was debating their decision, Attorney S. L. Clark and District Attorney Powers addressed the alderman, Clark asking for her acquittal and Mr. Powers agreeing that the evidence was not sufficient to hold Mrs. McNeil for court.

The jury later brought in a verdict finding that Mrs. McNeil had killed her husband in self defense.

After hearing the pleas of the attorneys, Alderman Mantz dismissed the charge of murder which had been placed against Mrs. McNeil and told her she was free to go.

Not until she heard the court's verdict, "Mrs. McNeil, you are discharged," did the widow lose the self control that marked her behavior throughout the hearing and inquest last night.

Upon learning that she was once more a free woman, the defendant burst into sobs. Her family surrounded her and offered comforting words. Her mother took her in her arms and said "You'll come home now, baby, and try to forget everything that's over." Her attorney and witnesses who testified earlier in the tense little court room offered their sympathy to the sobbing girl in brown who had shot her husband two nights previous.

Mrs. McNeil's six-year-old daughter Betty seemed to realize in some degree the seriousness of the drama which had been staged in the court room. Although too young to listen to what was going on, the little girl appeared to be worried and nervous, pacing back and forth across the room from her mother to her grandparents all evening. The three-year-old boy, Lee McNeil, was also present. He spent the earlier part of the hearing on his mother's knee.

Except for a quiver in her lip, Mrs. McNeil showed no emotion while testifying in her own defense. She seemed collected and calm.

The jury was composed of Leonard Campbell, William Lewis, Carl Staebler, Addison Carruthers, Charles E. Allen and William T. Dugan.

Mrs. McNeil thanked the jurors and the alderman for their kindness, and left with her parents. Just as the hearing was about to start, Mrs. Harry Jones, mother of Mrs. Anna McNeil, was stricken with a nervous attack and the services of Dr. Cleland, one of the witnesses, were necessary to quiet her. Dr. Cleland advised that she be taken away from the scene, to prevent a recurrence of the attack and she was taken away in a car while the hearing was on, returning at its conclusion.

## Pennsy Fights For Authority To Use Highway

Public Service Commissioner Walker Hearing Protests Against Railroad Today

### MOTOR FLEET IS SUPPLEMENT

(International News Service) PITTSBURGH, Feb. 8.—The legality of the Pennsylvania Railroad's use of public highways to supplement its rail service with a motor truck fleet without first acquiring authority from the Public Service Commission was disputed before Commissioner Samuel Walker here today.

The question was raised by Harold J. Shultz, counsel for the Pennsylvania Motor Truck Association, at a hearing on the application of the Pennsylvania Transfer company, a subsidiary of the railroad. The applicant seeks authority to extend the service it has operated since 1923—hauling of freight between Pennsylvania railroad stations in any section of the state.

Shultz argued that the application calls for the transportation of freight, assigned to the railroad, over the state's highways and constitutes an operation that has not been legalized by the commission.

Contention Disputed. R. K. Stackhouse, railroad official, disputed this contention on the ground that the applicant transported freight by motor truck under contract. All movements are confined to railroad stations and the railroad itself does not make use of the highways, he testified.

He admitted the proposed supplementary service may eventually be extended to make store door deliveries and that tests are now being made between Philadelphia and Atlantic City. The extension of the plan will depend upon results of the experiment.

"The railroad supplemented its service in 1923 with motor trucks because in some instances it is more economical and expeditious the moving of through trains," Stackhouse explained. "Shipments are made only from one station to another, thereby creating no competition with common freight carriers."

### PENNSY READY FOR COMBAT WITH SNOW

Forecasts of frigid weather and heavy snows caused the Pennsylvania railroad to prepare today for any sudden emergency which might threaten rail traffic over the E. & A. division lines. No interruption had been reported this afternoon.

Most E. & A. points reported temperatures similar to that recorded here, although at Erie and Ashtabula, O., the snow was heavier. From Ft. Wayne, Ind., came word that the snowfall had reached 12 inches.

"Figure it out! A 60-mile-an-hour oil may get by. But the oil that can 'take it' at 100-miles-an-hour is a whale of a sight better, safer oil at ANY speed!"

That's good common sense. For such an oil gives you extra protection . . . extra resistance . . . extra ability to halt wear and lengthen a motor's life!

Can Gulf Supreme really take super-punishment? Here are the facts . . .

It has successfully lubricated a test motor running at nearly twice the heat of the normal speeding engine—for 14 solid hours!

And, on a sizzling August day, it amazed racing drivers at the famous Indianapolis Speedway. Under Official AAA supervision, it lubricated a flashing Duesenberg racer . . . in a one-hour, non-stop run . . . at speeds reaching nearly two miles a minute! An average speed greater than 100-miles-an-hour!

Switch to Gulf Supreme now—Winter or "Regular." Its ability to take super-punishment means less spent on oil. Less spent on repairs. Longer motor life.

### Butler Speaks To Tax Payers

Suggests Plan For Easier Money At Meeting Last Night

IVOR DAVIS TALKS ABOUT INFLATION

B. F. Butler was the chief speaker at the meeting of the Tax Payers League Tuesday night in the League headquarters on Neshannock avenue, and spoke upon the critical situation confronting taxpayers over the entire country. He touched upon the farmers tax strikes in the west and sounded a warning that similar action would follow in the east if taxes were not reduced.

He also presented a suggested plan for easier money, which plan had been worked out by a New Castle business man who is now in Washington presenting the plan to governmental authorities. This plan would have the government print six billion dollars worth of scrip, in denominations of one dollar. Each man, woman and child in the country, barring inmates of asylums, would be given fifty dollars worth of the scrip which would be tender for merchandise purchased in America.

Three Cent Tax

Each dollar spent would bear a three cent tax each time it was spent and on the back of the scrip would be places for forty of the three cent stamps. When the four dollar stamp was placed the bill could be redeemed by the government for one dollar.

Edw. J. Davis presented a resolution calling upon all civic clubs to join with the Tax Payers League in its present effort to reduce taxes and the resolution was passed unanimously. It would have each club designate a representative to join with the League in the weekly meetings, and aid in solving the present vexatious questions.

Ivor V. Davis spoke on the possibility of getting cheaper money by a slight inflation of the present currency. This he said would enable people to pay off 1929 obligations which are still at a high peak as against the present low income.

A general discussion followed the talks.

### Zionists Meet; Name Officers

Jews Of City Hear Of The Rehabilitation Of Palestine Through Zionist Movement

Tuesday evening the Zionists of New Castle met in Beth Shalom, Boyles avenue and had as their speaker Abraham Goldberg of New York City, an outstanding Zionist leader.

The speaker gave a most informal talk on the work that has been accomplished in Palestine, which is being rehabilitated as the homeland of Jews. He told that about 100,000 Jews have entered Palestine in the last few years from Poland, where they had endured all of the horrors of the much feared Polish Pogroms. He said these people are rapidly becoming useful, self supporting citizens of Palestine.

With the reorganization of the New Castle district, provisional officers were temporarily elected, with Dr. H. A. Frank named president; Joseph Moresky, vice president; N. J. Love, secretary and Lou Kohn, treasurer.

Further plans for the organization will be discussed at a meeting Tuesday, February 14, at 8:30 in the Cosmo club, North Mercer street.

Our work is so planned and directed that students may enter any Monday and find classes suitable to their needs. Next Monday is especially a good time to enter because we have organized this past week, and our mid-winter classes are new in all departments. We have some fine classes in Secretarial subjects for high school graduates. In fact, we have classes for all who wish to enter next Monday.

## Counterfeiters Plead Guilty In Clearfield Court

Four DuBois Men, Including Two Brothers Await Federal Court Action

(International News Service) CLEARFIELD, Pa., Feb. 8.—Four DuBois men, including two brothers, today were awaiting federal court action at Erie following their pleas of guilty when arraigned before U. S. Commissioner John C. Forsyth on counterfeiting charges.

A fifth man, Leonard Carmella, refused to plead and will be given a hearing on February 15.

Those who pleaded guilty are Burt C. Fullerton and his brother Nat, Leonard Pierce and Joe Noble, all of DuBois.

Pierce, reputed ringleader, admitted he learned to make counterfeiting moulds in conversations with Lyman Haney, confessed counterfeiter, while both were in Clearfield

county jail last year. At that time, Pierce was serving a term for desertion.

Pierce admitted making moulds and coins and told of interesting other men in making and passing spurious quarters and half dollars.

## Weather Stops Curb Building

Drop in the temperature today threw five men out of work as the city engineer, Harry Hoskins, had planned to have them pour concrete for a retaining curb at Jackson park, East Washington street. The men will be put to work as soon as the weather moderates to such a temperature that it will not injure the concrete.

During the widening and paving of East Washington street some of the curb could not be saved.

As a result the city has put in such small patches wherever necessary.

But paper issued by the Government doesn't cheapen money if it pays the big boys a nice rate of interest.

## Scouts Will Open 23rd Anniversary Program Tonight

New Castle Joins Nation In Gala Observance; Decade Old Here

WILL GIVE PAGEANT AT SCHOOL TONIGHT

New Castle officially inaugurates Boy Scout Week tonight, when scouts, scouters, former scouts and scouters, and the general public, assemble in the George Washington junior high school auditorium at 8 o'clock to witness the pageant, "Mightier Than the Sword," which scouts will give.

For the entire week ahead, from the pageant's presentation tonight until next Tuesday, the Lawrence council will celebrate Scouting's 23rd anniversary.

Scout Executive Herbert G. Horton today made known the program for the remainder of the week:

**Ellwood Trip Planned.** Thursday evening the entire cast of this pageant will journey to Ellwood City; where it will be repeated; with Burgess Judd C. Turner, district chairman and second vice-president of the council, and a group of Ellwood leaders assisting in the program. The Lincoln high school auditorium will be the place.

Friday is designated as "Home Day" with scouts doing good turns around their homes; with a number of troops holding special meeting programs that evening.

Saturday is "outdoor day" with many troops taking hikes, having campfires and inviting non-scouts as their guests at these events. The Ellwood district troops are planning a special indoor meet at the Shelby Club; with an attractive list of events slated and keen competition certain. Messrs. Earle Herbert, Poister and other scout leaders are heading up this occasion.

Sunday is "Scout Sunday." Many churches are mentioning the Boy Scout Movement in their morning programs, and scouts in some churches are giving special service; such as ushering, giving out papers, bulletins, and so on; to remind their home institution that it has a real troop. Both New Castle and Ellwood City have arranged city-wide union services for scouts and scouters in the evening; the New Castle district troops meeting at the First Christian church at 7:45 o'clock, with Rev. G. S. Bennett delivering a sermon on "Contributions of Scouting," and Ellwood City district troops meeting at the Lincoln high school auditorium; with Rev. A. M. Stump delivering the sermon on "Seeing A Fine Art."

On Monday, the 13th, "Citizen's Day" the Ellwood district will hold a special court of honor with John Lindgren and his associates in charge.

Tuesday (besides being Valentine's Day) is set aside as "School Day" with school "honor rolls" to be started in various schools through the county. Commissioner Ralph Davis, Dr. C. C. Green and Ellwood and county educators ex-officio are heading this up. The plan is to start in each school having Boy Scouts enrolled, a scout "honor roll"; so that each scout attending may know the other scouts who also attend that school. Art departments of the various schools involved will assist as they can, in preparing these "honor rolls."

**Functions Here For Decade.**

Speaking of achievements in the past and present, Lawrence County has much to be proud of in its scouting record. Ten years and eight months ago a committee of interested citizens met in the New Castle Y. M. C. A. (on June 12, 1922, to be exact) and after hearing speeches for it made by Judge Prather of Meadville, Regional Chief R. F. Seymour and others, went on record with a motion to organize a county council of the Boy Scouts of America to supervise the work. Among those present were Hon. Fred Rantz, Judge Prather of Meadville, L. B. Round, Frank Fischer, Bart Rich-

ards, Judge Emery, R. L. Wallace, Daniel Reebie, P. J. Flaherty, Ralph Campbell, John B. Offutt, Howard Richards, Ben Graham, Charles Reppman and Dr. W. C. Wallace. A number of these men are active in Scouting today.

Five thousand men and boys have been in scouting in this county for varying periods during this past decade, and these include many now serving with distinction in business life. Large numbers of former scouts here are now in colleges and universities, acquiring themselves with credit.

Honors have also been won by both troops and scouters during the past year; and some of these will be recognized during anniversary week events. West Pittsburg One, winner of the annual county contest, will receive the trophy plaques at the New Castle celebration; this being their second successive win. A number of troop leaders will receive training diplomas as yet unawarded from the last training course. Irwin Ropp will receive the Scoutmaster's Five Year Key degree for both training and service; only two other men in this county holding this award at present.

**Win Hoover's Awards.** Last year President Hoover stated that a special award would be made to the nation's troops that showed a gain in membership, and met other conditions during 1932; and a number of council troops qualified for this award. It is not known just what form these awards will take; but some qualified local representative will bring the president's greeting to these troops, and, if the awards arrive in time, the awards themselves. (These will be given at the Wednesday evening program in New Castle.)

Each year the local council is empowered to recommend for consideration by a committee of national councilmen, one of its members who has, in past years, made an especially loyal, distinguished and helpful record of service in scouting. This is known as the Silver Beaver award and is given only to laymen. This award will also be made during Anniversary Week.

With all the service rendered by troops in Community Chest, Red Cross, troop relief to certain needy ones, convention service and so on, another phase of Scout helpfulness stands out sharply, two lives were saved from drowning by scouts in 1932. If we take Horace Mann's word for it, those two lives alone were worth more than all the money ever given for scouting in the decade of the county's scout history.

## Scrip Is Working Satisfactorily In South Side Stores

It Is Being Used In Many Ways Just The Same As Currency

Scrip issued Saturday by the members of the South Side Board of Trade as a medium of exchange and a means of stimulating business is working in a very satisfactory manner, it was stated this morning by W. C. Druschel, secretary of the board.

It was put into circulation by making purchases, paying bills and wages of employees. It is being kept on the move and is being circulated quite freely just like currency.

Those who received it as wages are in turn using it to make their necessary purchases, while those receiving it in payment for bills, are also passing it on.

There was one bit of misunderstanding to the scrip, according to Mr. Druschel and that is that some people have gained the erroneous impression that merchants are giving out the scrip as change, where cash is proffered by the purchaser. Such is not the case, it being used only in transactions where the scrip is entirely acceptable to the recipient.

## Gunning Building Topples To Ground

Crew Of Workmen 'Pull Down' Front Wall Today; Salvage Bricks

The remaining Washington street wall of the old Gunning building on the city's new postoffice site crashed to the ground today and workmen set at work to salvage the bricks which the heavy wall brought down. Foreman Victor Bristow, ordering his crew to "pull over" the wall shortly before noon, declared the brick salvaging work will delay the razing several days. He indicated the bricks must be scraped and stored on the lot before the Cunningham building wrecking could start.

The razing work on the government property, where the city's new post office will be, is making good headway. Only the large Cunningham block and a small frame structure remain standing.

# WET LEADERS PRESS FIGHT AT STATE CAPITAL

## Dry Repealer To Be Pushed

Supporters Are Enthused Over Vote On Blue Law Repealer, Tuesday

### PUBLIC HEARING ON NEXT TUESDAY

By ROBERT F. GORMAN  
International News Service Staff Correspondent

HARRISBURG, Feb. 8.—Wet leaders pressed their fight in the assembly today, determined to drive the state dry law repealer over the trail of victory blazed in the house this week by the Blue Law modifier.

Supported by substantially the same forces that backed the Sunday Sports bill, the anti-Prohibition measure was reported favorably yesterday after the law and order committee listened to a two-hour debate on the merits and faults of the Snyder-Armstrong Act. The repealer has come to be known as the Conner-Sowers bill. The co-sponsors are Philadelphia members.

**Scheduled For Hearing.**  
The bill was scheduled for its first reading today and if Wets are successful in demanding a final vote as were the Sunday Sports leaders the legislation will take the final test in the house next Tuesday.

The senate's law and order committee, though friendly to the Anti-Blue Law bill, decided against hasty action when the measure arrived with the lower branch's approval. The bill will be held up pending a public hearing next Tuesday afternoon at 2 o'clock.

Repealists in the assembly hope to have both the Blue Law and Dry Law bills out of the way by the time another piece of major legislation comes to the front. Next in order is the school code. A public hearing on the proposed new code is scheduled for Tuesday afternoon, February 21, under auspices of the house education committee.

Kennedy, the Evans City star forward was carried off the floor in the second period with a badly strained leg.

The passing attack of the Boydmen had the visitors at sea all through the battle.

Union's next league game will be with the fast Slippery Rock team at Slippery Rock, on February 14.

Bessemer High Hands Ellwood City Setback In Game At Bessemer

### DEARMENT AND BUNNEY STARS

Bessemer High School basketball team upset the dope bucket in Lawrence County basketball circles last night at the Bessemer High floor by taking the measure of the Ellwood City W. P. I. A. L. Section Three team 27 to 24. The Bessemer team led in every period of the game. The Fredericks coached combination looked very impressive in their victory.

Coach "Benny" Benedict started his regular Ellwood City High lineup but they were not equal to the task of stopping the fast Bessemer combination. The point scoring stars of the game were Dearment of Bessemer with 10 points and Bunney of Ellwood with a like number.

**Bessemer Takes Lead**  
The end of the first period found Bessemer High out in front 8 to 3, and at the half the score stood 14 to 4 with the Bessemer team leading. Ellwood City was held to one point for the entire second period, so close a guarding game did Percic and Seltzer play.

In the third quarter Ellwood City came up fast and held Bessemer to five points while they clipped in with 10 points, making the score 19 to 14 at the end of the third period in favor of Bessemer.

The final period was hotly contested with Ellwood City scoring 10 more points to eight for Bessemer. It was the lead that Bessemer piled up at the start of the game that carried them through.

In the preliminary game the Lowellville High team handed the Bessemer Junior High team a 30 to 9 defeat. Bessemer High varsity will play Union High Friday night in the big game of the year at the Bessemer floor. This will be a Class A county league battle.

Ernie Peters Defeats Luis Carpentero In Fierce Fight In Small Packages

Good goods come in small packages. At least this did on the night of December 2, 1932, when two of the best flyweights of the year fought at the Bowl. They were Luis Carpentero of Toledo and Ernie Peters of Chicago. Carpentero was accompanied by Ad. Thatcher, promoter of the Dempsey-Willard heavyweight titular bout. Peters won the decision.

Peters nailed the southpaw Filipino on his left eye in the first round, accidentally butted it with his head in the second, and when the fifth round ended the Filipino's eye was closed as tight as a drum. Despite the handicap Carpentero was as dangerous as dynamite and the Indian took good care that none of Carp's swings landed on a vulnerable point.

One of the best flourishes of the entire scrap occurred in the fifth round, when the Filipino bounded at Peters and showered a volley of lefts and rights that drove the Indian flying into the ropes. The Chicago lad came back strong with a right to the chin that made Luis' knees buckle and he almost went down. The session ended in a whirl of punches.

**Blow for Blow**  
They fought viciously for the next several rounds. Time and again blows made each other's head bob

like a cork, but as a general rule Peters' right beat Luis' left, and when the ninth opened the Indian had a lead. In this chapter a left to the head staggered Peters in Carpentero's corner. Carpentero slipped to a knee and the Indian plunged at him when he arose.

The tenth was a series of slug-fests and after the bell closed the round and fight, the judges agreed that the Indian had won the fight. The six-round semi-final between Frankie Rio and U. S. Carpentier proved a scintillating fight. In the last few sessions Rio's hooks bothered Carpentier. The fight was called a draw.

**Nick Pells Wins**  
Tom O'Leary outwitted Roy Minter, gave him a beating in the first part of the fight, but let up on Roy, it seemed, as the fight drew to the close of the sixth round. O'Leary got the award.

Nick Pells polished off Elmo the Mighty in a four-round preliminary. He extended a shelling to the local lad. Pells proved too clever for the wild swinging, grinning Elmo.

Johnny Jennings of the South Side, who has since given up the fighting business, did not dally long with Johnny Erskine. To be frank, the southpaw knocked him out in the first round.

## Titans Prepare For Allegheny

Game To Be Played On Friday Night At New Wilmington

### GENEVA WILL BE PLAYED TUESDAY

(Special To The News)  
NEW WILMINGTON, Pa., Feb. 8.—With 11 victories and four defeats on the books, Westminster college's basketball team meets Allegheny college on the home floor Friday night.

The Methodists were defeated at Meadville on Jan. 21, but even with a green outfit and lack of experience showed plenty of ability. The improved play of the Gators since then would indicate that Coach Lawther's Titans will have plenty of opposition.

For the Allegheny game, Lawther will probably experiment with the same lineup which faced Bethany, except that Bennett will be at center and Douglas will be at forward in place of Sweney. This will give the Titans a fair-sized team, with Douglas and Patt at forward; Bennett at center; and Wilhelm and Hunneke at guard.

Next week the Titans face the great Geneva team in a return game on the home floor Tuesday night, and play the West Virginia champions, Glenville State, on Friday night, Feb. 17.

# Wilhelm Ready To Again Rule German People

Former Kaiser Is Growing Restless In Exile In Holland, Return Indicated

POPULARITY IS SHOWN BY CARDS

Believe Days Of Exiled War Emperor Are Numbered; Is Keeping In Touch

By EDWARD HUNTER  
International News Service Staff Correspondent  
(Copyright, 1933, by International News Service)

DOORN, Holland, Feb. 8.—The days in exile of former Kaiser Wilhelm of Germany are numbered. Fully convinced that a "call" will come to him from the German people, the once mighty emperor of the Reich is preparing to leave Doorn House, the picturesque chateau he has occupied since his abdication.

**Becoming Restless**  
But in all probabilities it will be some months before the political situation in Germany can permit him to return to the fatherland in the manner in which he desires. The consensus of influential opinion is that he may spend one more year on Dutch soil.

Conversations with many persons in the exiled monarch's confidence disclose that Wilhelm is becoming restless and is showing signs of being "fed up" with this gloomy little woodland town.

He is spending more and more time in making automobile trips throughout the countryside, even going as far as Amsterdam and the Hague. He is expanding socially also.

**Conditions Remain**  
A visit to Doorn House is like stepping back a score of years. The ex-Kaiser and his entourage refuse to recognize the slightest change in their status.

His stationery is engraved "His Majesty the Kaiser and King William II. of Prussia."

No one speaks of the "ex-Kaiser" at Doorn. To everyone he is "His Majesty the Kaiser."

Wilhelm, chief protagonist of this anachronistic stage play, steadfastly refuses to regard himself in any light other than that of actual ruler

of Germany, deprived temporarily of his property, but none the less the rightful proprietor.

This attitude, I am informed by highest circles, is serving to obstruct plans for a Hohenzollern restoration. Wilhelm wishes to take over power himself and spurns any suggestion of divided authority or of permitting any other member of his family to sit upon the throne.

**Favor Prince Wilhelm**  
He is particularly opposed, I learned, to vesting power in the former Crown Prince, but is more favorably inclined toward the latter's eldest son, Prince Wilhelm.

As an indication of his attitude, the ex-Kaiser regards his every action as of historic importance. Splinters cut from trees felled by his own hand are sent to a favored few. His rose garden is a floral "Almanach de Gotha." Each bloom bears the label of the titled German who presented the bush to the exiled Kaiser as a token of esteem.

"The Kaiser's popularity in Germany has increased tremendously in the last few years," an official of Doorn House said. "Almost 100,000 messages of congratulation were received on his birthday last week. We packed them into fruit boxes and gave His Majesty a list of the names of those who wished to be remembered. It took us several days to complete it."

## Steel Industry Is Optimistic

Increased Orders For Structural Steel Give Courage To Steel Makers

(International News Service)  
PITTSBURGH, Pa., Feb. 8.—Renewed buying of structural steel during the past week today sounded an optimistic note in steel industry.

The American Bridge Company, a subsidiary of the United States Steel Corporation, possesses contracts for approximately 25,000 tons of material. A warehouse for the New York Central Railroad in New York will use 21,500 tons of this, while 1,500 tons will be used in the construction of a bridge in Illinois.

Orders at the McClintic-Marsh Company, a subsidiary of the Bethlehem Steel Corporation, aggregate 3,000 tons. Approximately 1,000 tons of this will be shipped to the west coast for construction of a post office at San Francisco.

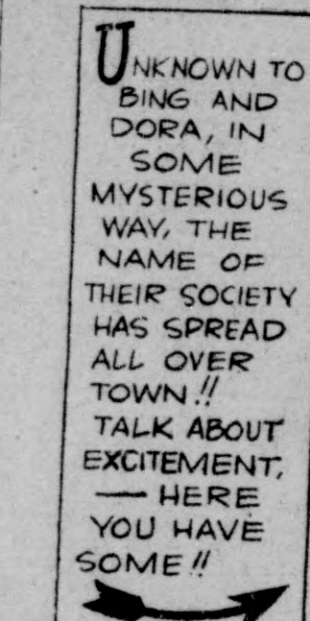

A 4,800-ton order has been placed with the Wheeling Steel Corporation for use in construction of a Federal building at San Francisco. The Jones & Laughlin Company will supply 1,100 tons of material for a lock on the Allegheny river.

A watch contains an average of 150 distinct parts, the production of which requires 3,700 separate operations.

Strength In Rails Keeps Market Improvement Continued From Tuesday

## STEEL STOCKS ARE SLUGGISH

(International News Service)  
NEW YORK, Feb. 8.—Strength in the rails today continued yesterday's improvement in the stock market in the face of the colorless nature of the mid-week business statistics.

A further rise in American Telephone helped along.

Impeding the rise were further weakness in tobacco stocks and the decline in steel and power production for the week.

There was some selling in the steel stocks as a result of the news from the industry. Both U. S. Steel and Bethlehem were sluggish. Steel preferred, on the other hand, displayed a firm tone.

Utilities were aided by short covering and the strength in American Telephone but gains were small.

General Motors marked time. Other automobile stocks were firm.

## ELLWOOD TO HELP SCOUTS CELEBRATE

Council Leader Cites Role Southern District Will Play This Week

ELLWOOD CITY, Feb. 8.—As Boy Scout Week officially opened all over Lawrence county today, Earl Herbert Wampum scout leader summed up the part that the council's southern district has played and will continue to play in the Scouting movement. He writes: "There is not a more interesting or dramatic story of present day organizations, than the one which tells of the growth of the Boy Scout movement in Lawrence county. After the movement's inception in the United States, it naturally took time to spread to the various sections of the nation. Only a troop here and there, with dealings direct with the national office marked a fact that people were becoming sold to the idea of organized programs for the development of a boy's leisure time."

Lawrence county was quick to respond to the call. Men called meetings, planned programs, giving freely of their time, with thought in mind that the time would be a permanent factor in each locality. It was this foresight that led J. Lee Calahan to set the wheels of organization in motion. After much deliberation and consideration with leaders already in the work, together with sincere citizens of Lawrence county, a council was formed. From that foundation has been one of the finest character building systems of the world.

During this week, everyone will be following the programs and activities of the Scouts. It is a week set aside to commemorate the 23rd successful year of the movement. Lawrence county has two districts under its council. The southern district is going the limit in stressing its progressive spirit and favor for the anniversary. It has mapped out a program that any entire law county would be proud to present.

Beginning today the Ellwood City section will stir the spirit of its citizens to the realization that Scouting is by far the most important factor in solving the leisure time problems of her youth. The most prominent men are leading the way. They are determined to give the respect due to workers of the movement. Men who have themselves gone up the steps of advancement, some that have been away for a time, as well as others recently volunteered into the work, will carry out the week's observance. No wonder that Scouting has taken the world by leaps and bounds. Get in on all the activities possible. Learn from a group of boys. If you do, you will soon be associated with the movement itself.

In New Castle the northern area will open its celebration with a pageant tonight.

MIAMI, Fla., Feb. 8.—Jesse L. Jones, Texas capitalist, Democratic member of the reconstruction finance corporation, apparently is slated to become chairman of that agency when Franklin D. Roosevelt assumes office.

Ernest Kremer, Montana national committeeman, is expected to receive appointment to the United States senate to succeed Senator Thomas J. Walsh, when the latter steps in to the attorney generalship. These decisions—subject, of course, to final approval by President-elect Roosevelt tomorrow when he returns from his fishing cruise off the Bahamas aboard Vincent Astor's yacht—stood out today in the mass of patronage matters passed upon here so far at the political headquarters temporarily set up by Jas. A. Farley Democratic national chairman, next postmaster general and big boss of job dispensation for the incoming administration.

Woodin Mentioned  
A new name had been added to the cabinet in the last twenty-four hours—that of William H. Woodin.

Some News, Some Views, But  
Mostly Just Observations  
Of Interesting Things  
Around New  
Castle.

Allen Cartwright turned one into this department last night that is being investigated and if it is true, it's a dandy. Concerns a silver spoon and a maple tree and hints of the Spanish Main or something.

Seems that the folks cut a maple tree down on his father's place on Temple avenue. The rings in the tree showed it to be between 90 and 100 years of age, which is considerable age you must admit. Inside the tree, lodged well in towards the center was a silver spoon with a marking showing it to be Brazilian silver.

Now the folks are wondering how the spoon ever got into the maple tree. Whether it is a piece of Spanish loot hidden in the tree years ago by a bold buccaner, or whether somebody tapped the tree for sugar water a long time ago and then left a spoon in it.

The case is being investigated by the undercover men and we hope to have a report on the case by tomorrow. In the meantime don't go around cutting down maple trees looking for silver spoons, as this may be just a rare exception.

its nearly time to look around for pictures, on a card, with lace and tinsel and a verse, and fill them by the yard, and in the verse a sentiment romantic, sweet and fine, in which you ask some dame to be your little valentine.

What to do with the old post office once Lake McNab gets moved into his Palace of Stamps on the Public Square is a question that is rapidly developing into a contest. Several suggestions have been received and we are considering offering some worthwhile reward for the suggestion that is most practical for the old building.

Horace J. Fitzwhisker suggests that the building be used as a second hand safety razor blade depot. This will save a lot of cut fingers and eliminate the necessity of putting slots in the bathroom wall.

Lemuel Quincy Wittleban is against the razor blade idea, but thinks the size and shape of the building lends themselves admirably to a pretzel bending factory.

Admiral Titwilliger would have the old building turned over into a club house where eligible bachelors with a lot of money could meet each afternoon and look over prospects for mates.
